

WOOSTER[®]

50/50[™]

Made with natural lambswool in a high-performance fabric blend, Wooster 50/50[™] is an affordable alternative to shearling. Its shed-resistant construction offers improved resistance to matting and spattering, along with excellent paint pickup and release characteristics. Often chosen for use on stucco and rough surfaces, Wooster 50/50 shears production time with all flat, satin, and semigloss paints.

- Shed-resistant, knit fabric blend of 50% lambswool & 50% polyester for all flat, satin or semigloss paints, stains & waterproofing
- Wool provides maximum paint capacity & a smooth finish; polyester resists matting
- Green, double-thick polypropylene core resists water, solvents & cracking (4" length has a clear, single-ply polypropylene core)
- Available in Jumbo-Koter[®] minirollers that utilize identical roller fabric for seamless results
